

CROWN

C-B

4000–5000 kg capacity

electric air-filled pneumatic tyre

Energised to excel indoors and out

Crown's C-B Series air-filled pneumatic tyre forklift is energised with 80 volts of pure electric power. These forklifts offer the capacity and stability often associated with internal combustion trucks. These capabilities allow C-B Series forklifts to perform a variety of demanding tasks for both indoor and outdoor applications with ease.

All-day comfort. Precision control.

Crown C-B Series forklifts are equipped with extra legroom, adjustable suspension seat and an ergonomic design that all support operator comfort — for each task throughout the shift. Instinctive controls are within easy reach to inspire operator confidence and safe operation.

Intuitive instrument panel
Easy-to-read display shows operators important information. Performance setting changes are simple and quick.

Fingertip controls (optional)
Quick, comfortable and precise — fingertip controls make operating the new C-B Series effortless and efficient.

Emergency switch
One-hand operation enables operators to easily enable the emergency switch while keeping a hand on the steering wheel.

Premium adjustable seat (optional)
A full-suspension Grammer comfort seat can accommodate individual operator preferences. An optional integrated heating system is also available.

- Excellent visibility**
- Overhead guard design adds strength for safety and allows for a clear upward view for operators.
 - Hydraulic hoses and chains arranged strategically close to the mast uprights and provide a wide-open view.
 - Optional tilt position assist
 - Optional large dual mirrors
 - Standard LED work lights

Hydraulic controls
Manual levers are the standard hydraulic controls for the C-B series. Fingertip controls are also available as an option.

Convenience tray
An accessible storage tray also houses a USB charging port, 12-V power supply and a cup holder.

Crown's proven service and support

Crown support begins long before the lift truck leaves the factory. Our integrated approach to service provides an exceptional user experience to our customers — before, during and after the sale.

Rugged and reliable

Dual drive units and motors deliver powerful, smooth operation. Fully enclosed, oil-cooled dual disc brake assemblies prevent contamination for exceptional stopping power and long life.

AC controllers

Reliable AC controllers provide a dependable combination of power and performance. IP65-rated controllers are reliable and well proven in tough applications.

AC motors

Virtually maintenance-free IP54-rated AC drive and pump motors deliver high power and torque efficiently for smooth, quiet operation.

Easy to access components

Tool-less panel removal allows for quick checks and easy access for service.

CROWN

You can count on Crown to sell lift trucks designed for safe operation, but that's only part of the safety equation. Crown encourages safe operating practices through ongoing operator training, safety-focused supervision, maintenance and a safe working environment. Go to [crown.com](https://www.crown.com) and view our safety section to learn more.

Because Crown is continually improving its products, specifications are subject to change without notice.
