

**CROWN**

# C-B

4,000 - 5,000 kg Capacity

**Electric Counterbalance Lift Truck**

# Energised to Excel Indoors and Out

Reduce your carbon footprint with Crown's C-B Series. This electric counterbalance forklift is energised with 80 volts of pure electric power and offers the capacity and stability often associated with internal combustion forklifts. These capabilities allow C-B Series forklifts to perform a variety of demanding tasks in both indoor and outdoor applications with ease.

# All-Day Comfort. Precision Control.

Crown C-B Series forklifts are equipped with extra legroom, adjustable seat and an ergonomic design that support operator comfort—for each task throughout the shift. Instinctive controls are within easy reach to inspire operator confidence and safe operation.

### Intuitive Instrument Panel

Easy-to-read display shows operators important information. Performance setting changes are simple and quick.

### Fingertip Controls (optional)

Quick, comfortable and precise—fingertip controls make operating the new C-B Series effortless and efficient.

### Emergency Switch

One-hand operation enables operators to easily enable the emergency switch while keeping a hand on the steering wheel.

### Premium Adjustable Seat (optional)

A full suspension Grammer comfort seat can accommodate individual operator preferences. An optional integrated heating system is also available.

### Excellent Visibility

- Overhead guard design adds strength for safety and allows for a clear upward view for operators.
- Hydraulic hoses and chains arranged strategically close to the mast uprights and provide a wide-open view.
- Optional Tilt Position Assist
- Optional large dual mirrors
- Optional LED work lights

### High-Visibility Antislip Step

High visibility for easy identification, open design ensures traction for operator entry and exit.

### Convenience Tray

An accessible storage tray also houses a USB charging port, 12V power supply and a cup holder.

# Crown's Proven Service and Support

Crown support begins long before the lift truck leaves the factory. Our integrated approach to service provides an exceptional user experience to our customers—before, during and after the sale.

## Easy to Access Components

Toolless panel removal allows for quick checks and easy access for service.

## AC Controllers

Reliable AC controllers provide a dependable combination of power and performance. IP65-rated controllers are reliable and well proven in tough applications.

## Rugged and Reliable

Dual drive units and motors deliver powerful, smooth operation. Fully enclosed, oil-cooled dual disc brake assemblies prevent contamination for exceptional stopping power and long life.

## AC Motors

Virtually maintenance-free IP43-rated AC drive and pump motors efficiently deliver high power and torque for smooth and quiet operation. They are optionally available with an IP54 dust and water intrusion protection rating.
